Alexis Wain

As graduate rep I'd like to get involved in all matters and make sure that the graduate course's thoughts, concerns and issues have been incorporated into all the committee's decisions, from social to academic matters. The divide between the two courses seems bigger than it should be and feel that it would be great for there to be more opportunities for the two groups to interact and mix it up a bit more right from the start.

I think the most important time that extra consideration needs to be made for the grads is when the two courses become one (to paraphrase the Spice Girls) at the start of clinical school when they're both running different timetables; like making sure that the graduate course is included in the clinical school photo. Also, I'd like to reach out to the 1st year grads to get them involved in Osler earlier.

I have lots of experience from my previous life that I could bring. Having spent 7 years in the Armed Forces I have been on numerous Mess and Ball Committees on ships and land bases, I even ran the bar at the Basra UK Forces HQ. I was the JCR speaker during my undergraduate degree and am currently half way through my year as the president of a University society.

All in all, I think that I could bring a lot of general experience to the committee and could help out and offer advice in many areas whenever I'm needed.
