Charlotte Young

The role of alumni and fundraising rep has three main aspects; liaising with the alumni officer and president of the Oxford Medical Alumni (OMA), ensuring Osler's current sponsors continuing support whilst encouraging increased funding for Osler House in the future, and to be part of the Osler committee as a whole. I am very keen to be part of Osler committee and enthusiastic about helping to build a strong Osler House Society through ongoing funding and support from alumni, so the community and facilities that we enjoy everyday are available for years of medics to come.

I have a wealth of experience on committees through my roles as JCR welfare officer and boat club social secretary at college. As a JCR welfare officer I had to be organized and a strong team-player, particularly when helping to run freshers' week - characteristics which I would bring to Osler committee. My role on the JCR involved liaising with senior members of college as part of the college-wide welfare network therefore I have experience in being a helping hand to more senior members of a team, as would be expected of an alumni rep working alongside the OMA.

I don't currently have any extra-curricular commitments so I would be able to dedicate lots of time to this role and to Osler committee. I am very keen to work hard together with other members of the committee to organize and run Osler events and get members, old and current, involved in Osler.
